RHB Tradesmart id Manual Book ver.4.0 27/01/2023

Smart Order – Price Conditional Order

Nasabah perlu mencentang [X] GTC dan memasukkan tanggal berakhir order GTC. Bila tidak dipilih opsi GTC maka order ini adalah seperti order biasa akan berakhir pada hari trading yang sama. Maksimum GTC

Contoh:

Nasabah melakukan order dengan detail berikut:

Buy Order		Condition	
Input Price	140	Best Bid Price	<= 140
Quantity (Lots)	5	Valid Until (DD/MM/YYYY)	04/05/2023
Amount (IDR)	70.000		
GTC	Yes, Valid: 04/05/2023		

Skenario 1:

Status Conditional order dari **Received** -> menjadi **Sent** Order akan dikirim ke pasar regular bila kondisi **Best Bid Price** <= **140** terjadi.

Nasabah	BUY/SELL	STOCK	Lot	Harga	Status
Α	BUY	BUMI	5	140	Open

Bila harga di market tidak ada kejadian harga 140, maka setiap hari trading order ini akan dikirimkan kembali ke pasar regular sampai order ini fully match atau withdraw/cancel nasabahnya atau telah melewati akhir tanggal **GTC 04/05/2023** (*DD/MM/YYYY*).

Skenario 2:

Status Conditional order **Received** -> sampai melewati tanggal **valid 04/05/2023** Karena Best Bid Price tidak pernah mencapai <= 140, dan order tidak pernah dikirimkan ke pasar.

Smart Order – Trailing Stop Order

Trailing Stop adalah membantu Anda untuk "memotong kerugian Anda dan membiarkan keuntungan Anda berjalan".

Biasanya, *trailing stop order* digunakan oleh nasabah yang telah mempunyai posisi dalam satu saham tertentu, atau sudah membangun posisi selama periode waktu tertentu. Trader masih ada keyakinan bahwa harga saham masih bisa berlari naik, dan ingin membiarkan keuntungan terus berjalan. Di sisi lain trader juga ingin melindungi potensi keuntungan yang telah didapatkan, maka trader dapat mengunakan trailing stop ini.

Contoh:

Saham BUMI berada pada harga Rp. 150, nasabah bila melakukan order trailing stop berikut:

- 1. Order #1 Nasabah melakukan order pembelian saham BUMI pada harga Rp. 150 sebanyak 5 lot.
- Order #2 Nasabah melakukan order trailing stop Jual saham BUMI 5lot pada harga 155, dengan Trailing Stop sebesar 10 step price atau 10 x 1 (Step price saham fraksi harga 50-200) = Rp. 10 Atau pada posisi harga Rp. 145 (155 – 10).

Smart Order – Trailing Stop Order

- 1. Traling stop baru akan mulai bekerja bila Order #1 telah atas pembelian saham BUMI 5 lot di harga Rp.150 telah **fully Matched.**
- 2. Saham BUMI pada satu saat turun hingga menyentuh 148 tetapi tidak sampai di 145 dan kemudian naik lagi ke posisi Rp. 170.
- 3. Selama pergerakan harga menguntungkan nasabah, harga trailing akan mengikuti sesuai harga terakhir. Pada saat harga mencapai Rp. 170 maka trailing stop menjadi Rp. 160 (170-10).
- 4. Saham BUMI kemudian turun hingga harga Rp. 160 maka smart order akan melakukan eksekusi order penjualan di harga tersebut, dengan demikian nasabah berhasil mengunci keuntungan Rp. 10 (160-150).
- Tetapi sebaliknya bila harga saham BUMI ternyata tidak pernah naik dari 155 setelah pembelian dan turun hingga menyentuh Rp. 145, maka akan terjadi penjualan saham BUMI akan dilakukan oleh Smart Order pada harga Rp. 145. Dengan demikian kerugian nasabah akan dibatasi maksimun sebesar Rp. 5 (150 – 145).
- 6. Trailing stop akan berlaku sampai pada masa tanggal valid yang dimasukkan oleh Nasabah dengan batas maksimum 120 hari kalender.

* Contoh digunakan dalam kasus diatas atas saham dengan harga 50 – 200, karena fraksi harga adalah 1 dan step price = 10, artinya secara absolut value 10 x 1 = IDR 10. Bila saham tersebut dengan harga 200 – 500, bila stop step 10 maka secara obsolut value-nya menjadi 10 x 2 (fraksi harganya) = IDR 20.

Smart Order – Volume > 50,000 lot

Jumlah vol Lot, dan nilai transaksi yang bisa dimasukkan nasabah sesuai dengan Max Vol dan Max Value Nasabah per order, dan juga sesuai dengan Funding Available yang tersedia, dan/atau Jumlah saham nasabah yang tersedia.

Contoh:

Nasabah A memasukkan pesanan Beli BOLA 60,000 lot, maka aplikasi akan memecahkan pesanan menjadi 2 order yaitu:

Order 1:	Beli BOLA 50,000 lot
Order 2:	Beli BOLA 10,000 lot.

Nasabah tidak bisa merubah jumlah vol lot yang dikirim, pemecahan order dilakukan oleh aplikasi.
